A well-motivated student of software who excels under pressure and lives for challenge, currently specializing in AR/VR technologies.

Education

Jan 2021-Jun 2022

Holberton School, Tulsa

- Exhaustive, project-based peer-learning environment
- Collaborated on projects using Git
- Spent first 9 months on coding foundations (C & Python)
- Spent last 9 months on AR/VR specialization (Unity & C#)

Experience

Mar 2020-Nov 2020

Grocery Stocking Associate - Walmart

- Organized and maintained features to raise sales of overstock
- Helped customers find items and kept backroom organized

Nov 2020-Feb 2021

E-Commerce Associate - Walmart

- Provided excellent customer service while driving surveys
- Used initiative with other departments to meet strict deadlines
- Preempted countless issues early with great attention to detail
